City of Union Point - TextMyGov Announcement

The City of Union Point is excited to announce the launch of TextMyGov, a new text messaging service designed to keep residents informed with timely and relevant information directly affecting our community.

Our new texting service enables the City to send text notifications to residents regarding important water and sewer issues, as well as updates about the water plant. As part of our commitment to keeping our community informed and engaged, some residents may receive an initial text from the number **91896** during the week of **June 17th, 2024**. These residents will receive essential and important community updates once they complete the opt-in process.

Residents can easily sign up to stay notified about city notifications such as **Water Issues, Sewer Issues, and Water Plant Information**.

We encourage all residents to opt-in for these important notifications to keep informed of city water and sewer announcements. Signing up is easy. Simply text **UNION POINT** to the number **91896**. After sending the initial keyword, you will be asked to complete the opt-in process by responding with **YES** by text to **91896**.

Users may opt-out anytime from future text alerts by simply texting **STOP** to **91896**.

This new communication tool underscores our dedication to transparency and community engagement. We look forward to connecting with our residents and enhancing our ability to communicate effectively.

Msg & data rates may apply. Check with your carrier for details.
